

TRAC match – July 18, 2023 – Wayne Mauler, match director

Okay, seeing as Larry does not like to read weather reports, I won't include it here.

We had 8 guys shooting today and Wayne was the high score with 45.

That's it.

Mark

Okay, the above was sent to Larry only to prank him for his comments on my match reports, especially after he "was forced" to write one for this past weekend. Please refer to picture of him crying his eyes out.....whiner!

Yes, today was hot! Started at 99° and was 102° when we finished, with the humidity hitting 29%. Hopefully we get some rain the upcoming future. The sun was bright with scattered high clouds, but nothing to create shadows. Winds were non-existent to mild, and up to 8 mph primarily out of the SSW, but shift to West, then north, then ENE and back again. Typical BASF conditions.

Yes, we had 8 guys today, and Larry was not one of them. In his defense, he did have root canal work done on his mouth, but I won't tell you where they had to enter to perform the surgery..... but the forceps were VERY long. Also, Mike showed up towards the end of the match just to harass the troops. He is also on the mend from recent medical stuff, but that didn't stop him from bitching and complaining, and just being an overall annoyance.

Let me put it this way, if you show up and do something....."noteworthy".....I WILL find a way to work it into the report. This is almost as bad as being around the firehouse, where EVERYBODY knows what is going on.....in a friendly sort of way! It sets us apart from everyone else.....and is very entertaining.

Here are today's scores.....

46/48 – Wayne "gimp" Mauler – shot his Thomas for high score today. Mrs. UBER, aka, Susie, is still providing transportation for Wayne until his tendon heals.

45/48 – Anthony Turchetta – shot his FX Crown Bee (he has more guns.....)

42/48 – Stan Mountford – Shot his Red Wolf

41/48 – Mark Kauffman – Shot his TX200 TL#1 springer, and tied with....

41/48 – Rick Eaton – Shot his Steyr Challenge

34/48 – Jesse Avery – Shot his Daystate Redwolf

32/48 – Bill Cole – shot his Daystate Huntsman

24/48 – Loren Braud – shot his Daystate Huntsman, and scoring better each week!

As the weather continues to get warmer, we urge you to drink lots of fluids to keep hydrated. We cannot emphasize this enough. We don't want anyone going down due to heat exhaustion or dehydration. Thanks goodness we shoot from in under the canopy. That is a Godsend!

Next Tuesday is the 4th Tuesday of the month, aka Pistol / Piston Tuesday....which means we will be shooting either a pistol or a piston gun, or for those who have neither, you can shoot your puffer guns.....which isn't nearly as much fun.

Also, in August, Larry will be gone most of the month, and Wayne is also leaving for 2 – 3 weeks, so you guys are stuck with me.....until the week of August 20. I will be gone that week, as well, so, unless Wayne is back by then, we may not have a shoot that 4th Tuesday. Just giving you fair warning. The way things are set up at BASF, either Wayne, Larry, or myself need to be there. No biggie, we can work around that.

Anyway, that is all for this week's episode of "how the killzone is missed".

Respectfully (?) submitted,

Mark Kauffman

Secretary, Airgunners of Arizona, Inc.
