

TRAC match – May 23, 2023 – Wayne Mauler, match director

The days just keep getting nicer and nicer! Today was bright and clear, no clouds, light blue sky. Temps ranged from 82° up to 90° and humidity percentage in the mid-teens. Wind? What wind? It was almost non-existent today, which is very unusual, but appreciated. The breezes were from 0 to 3 mph, just floating in and out. At one point, it increased to 7 mph and then died off. Otherwise, it was as mentioned, almost non-existent.

Today was pistol / piston day and we had 4 pistol shooters, 3 piston shooters, and 4 pcp shooters.

For the pistolero's....

47/48 – Mike Smith shot his Ranchero and blistered the course with only one miss.

37/48 – Barry Diehl shot his Brocock Atomic, followed closely by....

36/48 – Wayne Mauler, who shot his Brocock Atomic.

31/48 – Larry Piercy shot his Brocock Atomic (popular gun) for his highest pistol score to date.

On the rifle side of the equation.....

48/48 – Mark Kauffman shot his TX200 springer for a clean score

47/48 – Tony Turchetta, was hot on Mark's heels shooting his TX200 springer.

46/48 – Bill Cole shot his Daystate Huntsman puffer gun and his highest score to date.

44/48 – Jimmy Seybels shot his Avenger PCP

32/48 – Jesse Avery shot his HW77 springer.

31/48 – Van Tucker shot the entire course OFF HAND, using his Daystate Air Ranger. Fantastic shooting, and very sporting of him.

27/48 – Eric Halquist resurfaced after a lengthy hiatus, rejoined the club, and used his Brocock Bantam that kept leaking air. He will do better when he gets o-rings replaced.

That's it! Nothing else to report other than we were amazed at the lack of wind.  
This only happens once in a blue moon at BASF, but we'll take it!

Next Tuesday, back to our regularly scheduled programming..... See you then.

Respectfully submitted,

Mark Kauffman

Secretary, Airgunners of Arizona, Inc.
